1. The Objectives of the CARE

The CARE is the means by which the Institutes of Chartered Accountants (CA) in Canada and Bermuda measure the professional competence, in a Canadian context, of members of accounting bodies outside Canada that were assessed by the International Qualifications Appraisal Board as having education, examination and experience requirements substantially equivalent to the high standards of the Canadian CA qualification program.

The CARE examines membership candidates on their knowledge of Canadian accounting and assurance standards, the rules of professional conduct, Canadian taxation and Canadian business law.

The philosophy underlying the Institutes of CA in Canada and Bermuda's qualification processes is summarized as follows:

- (i) the public interest must be protected and the integrity of the CA designation maintained by ensuring that members of accounting bodies outside Canada who apply for the CA designation in one of the Institutes of CA in Canada and Bermuda embody the high standards of education, technical competence and professionalism associated with CAs in Canada and Bermuda;
- (ii) while the requirements to be completed by all those accepted by the Institutes of CA in Canada and Bermuda as membership candidates must be uniform, at the same time they must fully take into account the diverse academic and practical experience backgrounds of members of accounting bodies outside Canada; and
- (iii) the qualification processes and the regulations on which they are based must be administered equitably.

2. Eligibility to Write the CARE

A membership candidate is a member of a designated accounting body outside Canada who meets the requirements set out in the bylaws and/or regulations of the Institutes of CA in Canada and Bermuda. The bylaws and/or regulations of each institute specify which accounting bodies outside of Canada are "designated". Individuals should contact the applicable Institute in Canada and Bermuda to determine their eligibility as a membership candidate.

An individual must be registered with one of the Institutes of CA in Canada and Bermuda in order to apply to write the CARE.

3. The Structure of the CARE

The Examinations Committee has the responsibility to:

- Set the CARE in accordance with the general guidelines included in this booklet and other directions;
- Mark the membership candidates' responses and recommend to the Institutes of CA in Canada and Bermuda the successful or unsuccessful standing that should be given to each membership candidate; and
- Report annually on the CARE to the Institutes of CA in Canada and Bermuda.

The CARE is offered annually in late October and consists of two three-hour papers written over two consecutive days. The examination tests knowledge, comprehension and limited application of knowledge but does not directly test analysis, synthesis, evaluation and similar higher-order skills.

The examination consists of a mix of multiple-choice and single-subject questions, problems and short simulation cases.

The CARE is a closed book examination, in that membership candidates are not permitted to bring any reference materials with them into the examination writing centre.

The structure of the examination is as follows:

Day 1			Day 2		
Subject	Mark Allocation	Time Allocation (minutes)	Subject	Mark Allocation	Time Allocation (minutes)
Accounting	45-55	80-100	Canadian Taxation	45-55	80-100
Auditing	45-55	80-100	Canadian Business Law	18-22	32-40
			Rules of Professional Conduct	27-33	49-60
Day 1 Total	100	180	Day 2 Total	100	180

The results of the CARE are reported as a successful or an unsuccessful attempt. The CARE passing standard is determined on the examination as a whole.
